AIMS AND SCOPE

Pediatric Hematology and Oncology is an international journal publishing original papers, short communications, and reviews on all aspects of pediatric hematology and oncology. The journal deals with immunology, pathology, and pharmacology in relation to blood diseases and cancer in children and shows how basic experimental research can contribute to the understanding of clinical problems. Articles from all over the world will be considered for publication in the journal. Papers on related psychological, social, cultural, or historical aspects of these fields will also be considered.

Abstracted and/or Indexed in: Current Contents/Clinical Practice, Current Awareness in Biological Sciences, BIOSIS, Excerpta Medica, MEDLARS, Oncology Information Service, and Cambridge Scientific Abstracts.
